- Studying history and political science

Working languages:

- German

Klaus Fischer says:

"I search for innovative and sustainable ways of leadership development. I support people to reflect on their leadership and working together skills and further develop them. It gives me a buzz to see, the enormous steps people can make in very little time. I spend my free time passionately on the golf course together with my wife. I like the Austrian way of cooking and Austrian wine (especially from the south-Styria region). I like good food and a good cigar."
